RE: BAA/BABA Compliance

To Whom It May Concern:

This letter serves as confirmation that American Linear Lighting products are entirely manufactured and assembled in the United States of America and comply with the Build America Buy America Act based on the Buy America requirements as prescribed in 49 U.S.C. §5323(j) / 49 CFR Part 661. All components have been sourced from the United States, with the exception being only where there is domestic unavailability or unreasonable cost as complies with the exceptions in FAR 25.202 for construction materials. The Federal Transit Authority has provided guidance that their regulations under BAA are more strict than the Build America Buy America Act proposed requirements. The Federal Transit Authority regulations allow the use of foreign "subcomponents" within our American Linear Lighting brand domestic manufactured products.

Best,

Christina Lyons
