LINEAR EXPRESS PROGRAM OVERVIEW

Next-Day Shipping Terms

- Orders Received by 1:00 PM Central (M-F)
- Less than 1,000 Linear Feet
- Standard Freight Terms Apply
- When Emailing an Order Request, Please Type "Linear Express" into the Subject Line
- Standard A.L.L. Products must be Ordered Separately

Finally, Architectural Linear Products that Move at the Speed of Today's Projects.

AMERICAN LINEAR LIGHTING

OPERATION

Light Engine:

Linear Express product family comes standard with the ability to select in the field between 3000K, 3500K, & 4000K CCT as well as 3 different lumen outputs at 80 CRI.

Optics:

The back-lit extruded acrylic lens ensures high efficiency light output, in a minimal form factor for a clean, evenly illuminated lower surface with minimal glare.

Electrical:

Two Channel Class 2 Output Selectable premium power supply, 120-277VAC input. Power factor >0.9. THD < 10%.

Dimming:

0-10V 1% Dimming with Dim to Off Standard

Emergency Battery Pack:

UL Listed 924 Emergency System has been engineered to exceed UL Minimum Safety Standards. Fixture/rows will be supplied with four wire line volt & two wire low volt feed wires. Normal fixture drivers will be wired to "black" switched hot lead with a "red" un-switched through-wire wired to EM battery pack units "qty to be specified" in nomenclature string. Contractor will determine which fixture is the main feed point and terminate fixture leads as appropriate. EM Units illuminate the entire fixture.

MECHANICAL

Housing Construction:

Extruded Aluminum 6063-T5 alloy outer housing and LED tray with die-formed steel internal components for strength, alignment and mounting attachment. Our high-quality die-cast end caps are engineered to conceal all fasteners and to retain the sealing gaskets on the inside of the fixture while completing the clean and minimalistic look of this luminaire.

Alignment/Assembly:

The alignment system employs a four-point alignment and attachment method, designed to create straighter rows and minimize seams between sections (field assembled). Four alignment pins ensure the outer extruded aluminum rails are aligned, while a draw-screw secures housing-to-housing attachment.

Lengths:

The Linear Express product families are available in 4' and 8' (nominal) lengths. Longer fixture rows are available and will be configured per ALL factory specifications; rows are configured with 4-foot & 8-foot fixtures.

Mounting Method/Hardware:

Recessed

 The Linear Express recessed families are designed to integrate with most standard 15/16" & 9/16" Tee Grid lay in ceiling systems, as well as, hard ceiling applications.

Suspended

- The Linear Expressed suspended families are available for mounting upon any ceiling type, additional mounting hardware available by others.
- Fixtures are suspended by 1/16" galvanized aircraft cable. Cables are attached to the ceiling suspension point with a 1/4-20 threaded ceiling cable barrel that incorporates a threaded ring to support the feed/hanger canopy allowing access to the j-box/hanger without removal of the suspension cable allowing conductor inspection/service without having to support the fixture(s). Feed and Hangar canopies are 5" O.D. Cable lengths comes standard as 48". 96" & 144" Cable lengths are optional. Our UM mount kit integrates to "T1" T-grid, "T9" T-grid, "TG9" 9/16 regular grid, "HC" hard ceiling or "JB" hard ceiling J-box mount. "SC" Screw slot grid are optional.

Exterior Finish:

All Linear Express products are available in White polyester powder coat finish to ensure durability.

GENERAL

Warranty:

Ten (10) Year limited warranty from date of shipment

Lumen Maintenance:

Rated for 85% initial lumen output at 50,000 Hours of operation, operated at 25C ambient temperature; per TM-21 Guidelines published by the Illuminating Engineering Society (IES).

Certification

All Luminaires are UL and cUL listed, approved for Dry/Damp locations. All EM Units are UL 924 listed.

Shipping

For any Linear Express order received by 1pm Central on a business day that is equal to or less than 1,000 linear feet, the order will ship the next business day. For any Linear Express order received after 1pm Central on a business day that is equal to or less than 1,000 linear feet, the order will ship within two business days. Linear Express orders that are greater than 1,000 linear feet (regardless of time received) may have variable lead times based on inventory levels.

Manufactured in the USA

All ALL Luminaires and Components (with the exception of our LED boards and drivers) are proudly manufactured and assembled in the USA.

On Site Installation Notes:

Fixture rows will be supplied with the appropriate hardware kits to join fixtures together to form specified row lengths. End plate kits will also be suppled as required per row specifications.
